

if <expressão lógica>:

```
graph TD; A{if <expressão lógica>} -- Verdadeiro --> B[comando]; A -- Falso --> C[comando];
```

This diagram illustrates the execution of an if statement. It begins with a diamond-shaped decision node containing the text "if <expressão lógica>:". Two paths emerge from this node. The left path is labeled "Verdadeiro" (True) and leads to a rectangular box labeled "comando" (command). The right path is labeled "Falso" (False) and also leads to a rectangular box labeled "comando".

Verdadeiro

comando

Falso

comando
